About LCTech

LCTech GmbH is based in Obertaufkirchen, region of Upper Bavaria. Since 1998, the company have been developing and supplying products and methods for the preparation and analysis of food, animal feed, environmental samples and forensic samples. The product range includes GPC systems as well as solutions for the mycotoxin analysis. LCTech is represented worldwide through a well-developed distributor network and also acts as the exclusive distributor for PICKERING Laboratories in Europe, Africa, Middle East and the CIS states.

Head office in Obertaufkirchen, Germany

Worldwide, many customers - including governmental and contract laboratories focusing on food and feed

analysis, and also those based in the pharmaceutical industry or research - are equally appreciative of both our modern and efficient products and the responsive and competent customer support. A team of dedicated employees with creative ideas and projects contribute to the fact that LCTech is appreciated as an innovative company by various well-known institutions.
