

Decontamination declaration form

This declaration may only be completed and signed by authorised specialist personnel of the customer. A separate declaration must be submitted for each device delivered to LCTech.

Please mark with a cross which kind of potentially hazardous substances the unit has come into contact with.

Contamination	Yes	No	Contamination	Yes	No
microbiological			explosive		
flammable (highly flammable/highly flammable)			radioactive		
corrosive/irritant			Other. Pollutants		
toxic					

With which solvents/substances did the unit come into contact?

(Please fill in; if there is not enough space, please attach a separate sheet with the list)

Trade name	Chemical name	R-,S-phrases	Has the unit been decontaminated or disinfected?
			No

Equipment that has been contaminated with microbial, explosive, radioactive or toxic substances will only be accepted if proof of proper cleaning is provided.

Legally binding declaration

The undersigned assures that the information given in this declaration is true and complete and that the system/ components have been decontaminated in accordance with the regulations by competent personnel. The client is aware that in the event of contravention he can be made directly liable to the contractor for damages, here in particular in the event of health impairments of the service personnel at LCTech, in accordance with §823 BGB (German Civil Code).

A fully completed copy of this form must be sent in advance by letter or email to the address given on the first page so that the information is available before the delivery arrives. Please clearly mark all packages/palettes with the attached return declaration.
